

# LUIS MORENO RZ

SENIOR MARKETING DESIGNER | EMAIL CAMPAIGN DESIGN (KLAVIYO) | BRAND SYSTEMS + CREATIVE DIRECTION

[moreno.luisrz@gmail.com](mailto:moreno.luisrz@gmail.com) · Monterrey, Mexico · [www.behance.com/luismorenorz](https://www.behance.com/luismorenorz) · [www.linkedin.com/in/luismorenorz](https://www.linkedin.com/in/luismorenorz) · Portfolio / design repository [HERE](#)

## PROFESSIONAL SUMMARY

Marketing designer specializing in email campaign design and modular design systems for agency and corporate teams, with high-volume production experience in Klaviyo. I use visual storytelling to turn a single message into scalable creative across email, social, web, print, and packaging, and work cross-functionally with strategists, copywriters, and account teams to ship campaigns that hold up on brand and on performance.

## CORE SKILLS

Email campaign design, Klaviyo, automated flows and lifecycle email, modular email systems and reusable templates, mobile-first and dark mode design, deliverability-aware layout, visual storytelling, creative direction, design research and moodboards, paid social creative, landing pages, packaging and print production, editorial design, accessibility, brand consistency, cross-functional collaboration, client management

## TOOLS AND PLATFORMS

Figma, Photoshop, Illustrator, InDesign, After Effects, PowerPoint, Google Slides, Klaviyo, Shopify, Webflow, WordPress, Squarespace, ChatGPT, Midjourney, Firefly, NanoBanana

## PROFESSIONAL EXPERIENCE

### GAS Group

Marketing Designer

Manhattan, NY

Jun 2022 – Mar 2026

- Directed creative production for up to 8 accounts a month: ~10 social assets and ~10 email campaigns weekly, 50+ web banners monthly, with concept quality held steady at volume
- Built the content buckets, kits, and reusable template systems the team designs from, then extended them into print and retail collateral, packaging updates, and production-ready files
- Guided layout and hierarchy with performance signals, using heatmaps, content structure, and deliverability considerations across landing pages, product launches, and paid-ready creative
- Turned product benefits into visual storytelling, carrying one message from email through landing page to paid social so each campaign read as a single narrative
- Closed asset gaps for brands with thin photo libraries by art-directing and generating imagery, AI-assisted when useful, that held the brand look across launches
- Led concept development on open briefs, including hiring campaigns, presenting moodboards and multiple directions with clear rationale to creative leadership, PMs, copywriters, and paid media

### Flowium

Graphic Designer (Contract)

New York, NY · Remote

Sep 2023 – Feb 2026

- Designed and shipped 8–15 emails a day for eCommerce brands: campaigns, automated flows, opt-in forms, banners, and reusable modules built for fast, on-brand assembly
- Used heatmaps, click behavior, engagement patterns, and campaign KPIs as design input, tuning hierarchy, responsiveness, and interaction for clarity and conversion
- Built each send as a story, from hook to offer to CTA, keeping campaigns readable on mobile and in dark mode
- Brought motion into email with After Effects, adding movement while staying inside email best practices and deliverability limits
- Shaped visual direction for brands with no system in place through design research and moodboards, and created brand-aligned visuals for clients with little or no creative library
- Collaborated cross-functionally with strategists, copywriters, and project managers, managing up to 8 clients at once across beauty, wellness, healthcare, fitness, cannabis, AI, SaaS, and CPG

## PROFESSIONAL EXPERIENCE (CONTINUED)

---

### Coalition Technologies

#### Marketing Designer

Los Angeles, CA

Jul 2022 – Mar 2023

- Produced 6 to 8 Klaviyo emails a day across multiple brands, holding each brand's standards at speed
- Built the modular system behind that output: hero variations, product and benefit blocks, promotion modules, CTA styles, and text-only alternatives, so assembly stayed fast without losing quality
- Translated campaign goals into structured layouts with clear hierarchy and click intent, working directly with strategists, copywriters, and email marketing specialists
- Proposed packaging and naming direction for a beach and beauty line, carrying one design system across 6 to 8 SKUs with dielines and print-ready files

### Teleperformance

#### Creative Content Coordinator

Monterrey, México

Aug 2019 – Jun 2022

- Produced the B2B business development collateral behind sales enablement and client pitches, including decks, one-pagers, and event branding
- Designed event experiences that merged the Teleperformance brand with the client's, carrying one story across merch, signage, backdrops, and on-site activations
- Built themed environments for visiting clients, using branded spatial design to make the visit itself memorable and detail-driven

### Svelte Media Inc.

#### Creative Designer

West Palm Beach, FL

Feb 2017 – Jul 2019

- Designed high-converting landing pages for an e-commerce wellness business serving women 40 to 60, building the visual argument around direct-response principles and that audience's decision triggers
- Set social content direction and produced the organic output, turning supplied material into structured posts that held the brand's voice and messaging

### Conduent

#### Brand Manager

Monterrey, México

May 2015 – Sep 2016

- Ran internal brand and communications programs across multiple stakeholder groups, using email engagement signals such as opens and clicks to see what was landing and adjust
- Designed executive-ready presentations for internal teams, sales enablement, and client pitch moments, keeping the argument clear and the brand aligned
- Produced editorial-style eBooks and long-form assets, translating brand guidelines into layouts people actually read

### Rio da Prata

#### Marketing and Communications Manager

Mato Grosso do Sul, Brasil

Jun 2013 – Jan 2014

- Ran organic social for a tourism destination with zero paid budget, betting the strategy entirely on content direction and community
- Doubled to nearly tripled follower growth within a year through a structured posting system and brand tone guidelines across multiple sub-brands

## KEY ACHIEVEMENTS

---

- Designed the advertising creative that ran on a Times Square billboard for a swimwear client, taking it from blank brief through concept options to final production
- Gave a wine portfolio a real visual direction across web, social, print, and packaging, moving the brand past logo-only execution
- Built email creative for responsive behavior and dark mode readiness, using live text and click-focused hierarchy instead of image-only layouts

## EDUCATION

---

### Universidad Autónoma de Coahuila

#### Bachelor degree in Marketing

Saltillo, Mexico

2011 – 2015

## LANGUAGES

---

Spanish (Native), English (Proficient), Portuguese (Proficient)
